

The Terminal Operations that return Optional

In this video, I'll be covering the final few terminal operations, all of which return an Optional.

Return Type	Terminal Operations
OptionalDouble	average()
Optional<T>	findAny()
Optional<T>	findFirst()
Optional<T>	max(Comparator<? super T> comparator)
Optional<T>	min(Comparator<? super T> comparator)
Optional<T>	reduce(BinaryOperator<T> accumulator)
