

## Gantt of Gantt: Planning the Big Picture

If you want to insert a new project or move a project forward, then you'll probably need to

1. Get more resources.
2. Postpone one of the other projects—you can have a sensible discussion about this, in time to make any changes in an orderly fashion.

View overall project progress.

### **“The past”**

Are we keeping up with the plan?

Calculate loading profile for all planned projects combined.

### **“The future”**

Can we do what we want to do?
