Term	Definition
Iron Triangle	A set of three constraints (cost, time, and quality) in a project
milestone	A key event or specific point in a project timeline typically used to monitor the project's progress toward its goal
project	A set of new tasks with a finish date
project review	A list of lessons learned gathered at the end of a project, which includes what went well, what did not go well, and what could have been done differently
risk matrix	A visual display of the risks that affect a project and the mitigation plan to lessen these risks
WBS	Work breakdown structure; a tree of tasks that have been mapped out and detailed for the work in a project
